ROLLINSFORD SCHOOL DISTRICT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Rollinsford:

This year we have been involved in the completion of the addition to the elementary school authorized during the past year. The building cost was greater than had been anticipated, and as a result, the kitchen was eliminated and the activity room extension was cut by twenty feet. It is planned that the existing kitchen will continue to be used as the food preparation area, and if possible, a kitchen will be added to the school at some future date.

We are disappointed that the planned addition could not be completely constructed; however, the basic need--classroom space--has been met. The contractor has been very cooperative throughout the time he has been at Rollinsford, and the quality of the construction, in my opinion, has been good. We have not painted all areas at this time, again due to financial problems, but plan to complete this phase of the work this summer.

The enrollment at the school this year did not meet our expectations in the first grade; however, we did divide the large second grade and the large fourth grade which has resulted in good class size at all grade levels. We do have some difficulty anticipating future enrollments. This is due, I believe, to the migration of people in and out of the district. We do know that the town will grow in terms of population since it has large open tracts of land available for homes and housing developments. I hope the town will make plans to organize and plan the growth to ensure that whatever building does take place is organized in the best interests of the community as a whole.

The school budget for the next school year reflects the following:

Teacher salaries have been raised to ensure that we can compete for new teachers and offer a reasonable salary to our veteran teachers. The teacher salaries are not high in relation to other school districts, and teachers

are in demand in every school district.

Pupil transportation appears to be higher than last year when, in actuality, it is not. At the school district meeting, a total of $18,600 was voted last year for this service; however, the State Tax Commission ruled that payments for transportation for pupils attending St. Thomas Acquinas High School were illegal and would not allow this sum in the budget. The Attorney General's office is presently studying the problem and will rule on the legality of such expenditure in the future. The result of this situation is the inclusion of an article in this year's warrant to raise additional funds to pay for transportation to the parochial high school.

Retirement for teachers, the nurse, and custodian has risen due to higher social security rates and increased salaries.

Equipment costs are higher to provide some equipment for the new addition that could not be purchased through the bond issue.

Tuition costs have increased due to higher per-pupil charges by the receiving schools and an expected slight increase in numbers attending high school.

Supervisory Union expenses are higher due to salary increases and the addition of a clerk-typist in the office beginning July 1, 1966.

We do have three, and the possibility of four, pupils attending the Great Bay School for the Retarded at Newington which is reflected in the budget under payments to private schools.

The school budget has a new item included entitled "Public Law 89-10, Title I." This item refers to the possibility that the district may receive these funds under the 1965 Elementary and Secondary Education act--federal bill for education. These monies can be used only to help those youngsters who are educationally and/or economically deprived. I feel the district should approve this expenditure, and realize that the funds will be furnished by the federal government shown under anticipated receipts for the school year. An

article has been included in the school warrant to allow the school district to expend funds under this Act for this school year 1965-66. The Attorney General's office for the state has ruled that the school district voters must approve of any such expenditure.

School costs, in my opinion, will continue to rise in the future due to greater numbers of children to educate, new and more costly equipment and methods, and the higher costs of services, salaries, and materials. Personally, I think the State of New Hampshire must help the local communities meet the greater expenditures that will be required for all services. One cannot expect the limited resources available to a town--the property tax--to provide the funds necessary to meet all expenses.

This past year, many persons have contributed to the school. I should like to recognize Mr. Stuart Pickard, the Assistant Superintendent; Mr. Hatfield, the Principal; the teachers; the transporter; the school nurse; the custodian; the lunch director and her assistant; and all others who have given of themselves for the children. I also should like to take this opportunity to recognize the Parent-Teacher's Association which has recently been formed; it is my hope that this group will continue their good work for the school.

To you, the school board, I extend my appreciation for your aid, advice, and cooperation. I also should like to commend you and the selectmen for your many hours of work in the planning, supervision, and completion of the new school addition.

Respectfully submitted,

ROBERT L. BRUNELLE

Rollinsford Grade School
January 1, 1966

To: The Superintendent of Schools
The Rollinsford School Board
The Citizens of the Town of Rollinsford, N. H.

It is with pleasure that I submit to you this annual report covering in part some of the activities of the Rollinsford Grade School during the year 1965-1966.

Elementary education is usually understood to mean appropriate schooling for children between the ages of 6 and 14. It is traditionally thought of in terms of mastery of the fundamentals of reading, writing, and arithmetic, the concept of elementary education has been expanded in recent years to include the furtherance of all aspects of the wholesome growth and development of children.

The general aim is the fullest development of each child. The goals of elementary education are both individual and social; they are derived from the basic needs of children and the demands of modern society.

Modern elementary education is concerned with helping each child:

(1) to attain wholesome physical, emotional, and mental health.
(2) to become efficient in the tools of learning -- to read, to communicate, and to think intelligently.
(3) to grow in understanding of the meaning of democracy
(4) to understand the physical and social environment of which he is a part
(5) to meet and solve problems intelligently
(6) to develop worthwhile recreational and creative interests
(7) to develop his best powers and potentialities.

FACULTY

To implement the aims as outlined above it is necessary for a school to have a faculty or teaching staff. The following faculty data sheet will give you the pertinent facts about the members of the faculty of the Rollinsford Grade School:

ENROLLMENT

Another necessary component of the school is the student body. We have found that over the past twelve years, the number of pupils has been gradually on the increase. This past year has been no exception. Reference to the tables will bring out the facts concerning

(1) Comparative Enrollments 1954-1966
(2) Pupil-Teacher ratio 1965-1966
(3) The registration Statistics for the Grade School.

HOT LUNCH PROGRAM

The Hot lunch program of the Rollinsford Grade School is under the direction of Mrs. Kathaleen Burke of Rollinsford. Mrs. Burke came to us before the end of the last school year and filled in very capably after Mrs. Wilson left Rollinsford and moved to Enfield, New Hampshire. Mrs. Burke and her assistant Mrs. Rose Roberts handle the lunch program in a very capable manner. The menus are well prepared, balanced and appealing. However, because of the current prices of groceries, and because the Federal government has seen fit to reduce the amount of reimbursement to 4½¢ per child's meal, and because of the price of 25¢ per meal per child, we cannot afford to use a menu similar to that of the Waldorf-Astoria.

A typical lunch for each day of the school year is as follows:

(1) a hot dish
(2) a sandwich
(3) a dessert
(4) a bottle of pasteurized milk

Cost per lunch per child 25¢ per day

During the past year the lunch program has been feeding an average of 172 meals per day.

The following is a financial summary of the lunch program for the year:

In conclusion, let me offer the thanks of the Faculty and the staff of the Rollinsford Grade School to the Superintendent of Schools and the Assistant Superintendent of Schools, the members of the School Board, and the Citizens of the Town of Rollinsford for their understanding and help in making this school the kind of cooperative enterprise that serves a community well.

Respectfully submitted,

Lewis W. Hatfield
